**7.3.1: Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words.**

The Kamakhya Pemton College, Hiyangthang, Manipur-795009 is performing well in various areas like academic, infrastructure and sports. Out of these, academic performance is one of the most distinctive areas and performed well during the last five years (2019-23). Academic performance of a Higher Education Institute is often a key indicator of the quality of education it provides, the effectiveness of its teaching methods, and the overall success of its students. High academic performance of students is often a prerequisite for admission to competitive universities, which can lead to further academic and professional opportunities.

Institutions with consistently high academic performance gain a strong reputation and this can lead to increased funding, research opportunities, and collaborations with other prestigious institutions. A focus on academic performance is essential for a HEI and wants to provide its students with the best possible education and prepare them for success in the future. So, with a mission, the Governing Body of Kamakhya Pemton College, Hiyangthang guides on enhancing academic performance and it really encourages continuous improvement in teaching methods, curriculum distribution, mentor-mentee, and student support systems and this can lead to a more engaging and effective learning environment for all students.

The college has also started the Learning Management System (LMS) with the help of MOODLE platform. Moodle is a popular LMS that can greatly benefit both students and teachers. With this initiative, faculty members were familiarised with the features and functionalities of MOODLE as a LMS. Faculty members were provided hands-on-training on how to create, organize, and manage course content on MOODLE by the Department of Computer Science with the support of Directorate of University and Higher Education, Government of Manipur. With the implementation of LMS in our college, it will facilitate sharing of best practices and experiences among faculty members and encouraging collaboration and innovation in online teaching and learning, thereby helps in performing

best academic activities. Maximum faculty members of our college were also trained and attained the Faculty Development Program (FDP) on MOODLE under the guidance of Directorate of University and Higher Education, Government of Manipur.

Libraries in higher education have always been important and their role is only becoming more crucial in the digital age. But, libraries are so important for students and faculty to access vast array of information resources, including books, journals, newsletters, and many more. Libraries can also help students in developing research skills to find credible sources of information. Libraries can also be a social and cultural hub for a community. They can host events, such as author readings, book clubs, and lectures. This can help to build a sense of community and to develop a love of learning. Libraries are not just repositories of books; they are vibrant learning spaces that are essential to the success of higher education. They provide students and faculty with the information and resources they need to succeed, and they also help to foster a love of learning that can last a lifetime.

With these important facts, our College Central Library was established in the year 1998, with the donation of Library Building and some books by the Late Wahengbam Angou Singh. The College Central Library was earlier known as Malika Library, Hiyangthang. Some of the facilities our college central library has are given below:

Out of 1162 students, 1008 students could clear the said examination at the passed percentage of 86.75.*

Several factors contribute to Kamakhya Pemton College's academic success:

- i. **Dedicated Faculty:** Experienced and passionate teachers provide students with strong academic guidance and support.
- ii. **Robust Curriculum:** The Manipur University (affiliated university) framed a well-structured curriculum that balances theoretical knowledge with practical application.
- iii. **Curriculum Delivery System:** Platforms like LMS provide access to study materials and helps in the existing curriculum delivery system.
- iv. **Evaluation System:** Students evaluation through internal examinations, practical, power point presentation, field report, active engagement in discussions, etc. fostering critical thinking and providing feedback.
- v. **Infrastructure:** The institute provides the essential building blocks (physical infrastructure), technological systems (IT infrastructure), and education and knowledge acquisition (Learning Management).
- vi. **Supportive environment:** The College fosters a supportive learning environment (like offering scholarships and awards, incentives, etc.) that encourages students to reach their full potential.
- vii. **Additional Resources:** Libraries, laboratories, and other resources are readily available to aid students in their academic pursuits.
